STAT  
Dear

This is in response to your letter of May 19, 1969 regarding information concerning the budget of the Central Intelligence Agency.

For security reasons the Central Intelligence Agency does not discuss its budget, the amount and details of which within the Congress are known only to members of the committees which oversee the Agency. The budget is, of course, available to a limited number of high officials in the Executive Branch.

As of possible interest to you, I am enclosing a pamphlet containing general information on the Central Intelligence Agency.
